

Sealers for Burnished Block *and* Concrete Masonry Products

The ideal choice for sealing and protecting concrete building products:

- Burnished Block
- Split Faced Block
- Concrete Bricks & Pavers

TRI-SILOXANE 290 / TRI-SILOXANE 290 VOC

- Forms a chemical, permanent bond to the substrate.
- Protects against damage from water, acid rain, chemical intrusion, smog and freeze/thaw exposure.
- Colorless, non-staining and non-yellowing.
- Non-gloss - doesn't change appearance of the substrate.
- Allows the surface to breathe & does not trap moisture.

BRIGHT KURE & SEAL / BRIGHT KURE & SEAL VOC & BURNISHED BLOCK SEALER WB 192

- Gloss appearance highlights natural colors in the surface of the substrate.
- Dries clear and does not yellow with age.
- Forms a durable and long lasting film with resistance to water, chemicals, abrasions and stains.
- Available in gloss or matte formulations.*

*Burnished Block Sealer WB 192 not available in matte

BLOCK AND GRAFFITI GUARD 5220 VOC

- Silicone elastomer water and graffiti resistant coating.
- Excellent performance against damaging effects of water and weather.
- Provides defense against graffiti and vandalism substances.
- Allows surface to breathe and does not trap moisture.
- Non-gloss, non-yellowing and non-staining.
