

SURESPRAY

A thin, multi-finish, sprayable concrete overlay for high traffic areas, such as: hardscaping, pool decks, patios, outdoor living spaces, sun rooms, basements and most interior retail and residential flooring. SureSpray is the most versatile, self-bonding overlay on the market; able to resurface and redesign your old worn concrete surfaces.

- SELF-BONDING
- WHITE CEMENT FORMULA
- TROWEL / SPRAY / SQUEEGEE

BENEFITS

CONCRETE AT ITS BEST

Designed to resurface and transform old, worn or damaged substrates, SureSpray eliminates surface defects, increases wear ability and improves coefficient of friction (COF) and slip resistance. What's more, it can be handcrafted to create beautiful concrete surfaces with high durability and long service life.

DESIGN VERSATILITY AND CREATIVITY

SureSpray's versatility allows it to be applied in a variety of fashions to create an array of designs and techniques; from mimicking tile, brick and wood grain to capturing the elegance of Euro-Texture. Utilize our premeasured color packs to broaden the color palette of your next design.

USER-FRIENDLY APPLICATION

As a self-bonding, cement based product, SureSpray was formulated to make resurfacing concrete easy. While designed to be sprayed with a hopper gun, it may also be applied with a trowel or squeegee for application flexibility. Additionally, it is available in two formulations to suit your project demands.

Wood Grain Texture Patios

Tile Texture Concrete Floors

Stained Concrete Overlay

TESTING DATA

COMPRESSIVE STRENGTH - ASTM C-109

28-days 4278 PSI (29,495 kPa)

FLEXURAL STRENGTH - ASTM C-348

28-days 995 PSI (6,860 kPa)

TENSILE STRENGTH - ASTM C-190

28-days 440 PSI (3,033 kPa)

TWO FORMULATIONS

SURESPRAY™

Standard formulation for general purpose interior and exterior applications

SURESPRAY ST™

Slower cure time for high temperature exterior applications
